

## **BLENDING THE SCIENCE OF HORTICULTURE WITH THE ART OF DESIGN**

Bringing the natural world in to your home, office, or outdoor space will increase your quality of life. At Greenery NYC, we are designers and horticulturists with a mission: to bring the beauty of nature indoors to create more comfortable, attractive, and productive places to live and work.

---

## **PROJECTS**

We create spaces that help reconnect people to their innate love of plants and the natural world.

## OFFICE PLANTS

Employees are happier, healthier and more productive in the presence of plant life. We create custom design plans and offer plant maintenance packages to help make your space a more beautiful and creative place to work.

## GREEN WALLS

Green walls are an undeniably beautiful way to bring plants indoors. We specialize in creating lush living walls both large and small.
