Professional Cleaning Services for Home and Office in NYC

Having a clean home or office is one of the best things you can do for your physical and mental well-being. But when your days are as fast-paced as the city of New York itself, the last thing you want to do is spend your free time scrubbing bathtubs and dusting countertops. White Glove Cleaner is here to help.

White Glove Cleaner is a Manhattan-based cleaning company that goes far beyond ordinary cleaners. We focus on you, the client, in detail and with utmost attention to your needs and preferences. We pride ourselves on our wide array of services and are proud to retain happy repeat customers for life. Opt for one-time cleaning services like move-in/move-out cleaning or deep cleaning in the spring, or choose weekly or biweekly visits to keep your space sparkling all the time.

Our team is made of the most talented house cleaners who have each been individually vetted and background-checked, ensuring the safety of your family, your employees, and yourself. We provide our own cleaning products and tools to save you time and money compared to purchasing your own equipment. Additionally, if you're concerned about allergies or sensitivities, we offer a special "green cleaning" service using effective cleaners that are safe around kids and pets.

At White Glove Cleaner, we don't think of our clients as just customers. We stand behind our clients and provide the same high-quality services we would want for our own homes. Our long-term customers are our extended family, and we strive to treat all of our clients with the same care and attention we give to our relatives. We are here for you and strive to make your hectic life that much simpler. The little things and the attention to detail that we provide will shine above the rest.

Contrary to popular belief, professional home cleaning is not just another unnecessary item in the budget of a family or company, but an opportunity to intelligently save money. And to ensure absolute cleanliness in your own office or NYC apartment.

Also, cleaning services from White Glove Cleaner will help reduce costs:

- **On repairs.** A regular cleaning service in NYC will significantly extend the life of your floor coverings, and it helps to protect walls and floors from wear and tear, and mechanical stress (sand, debris). Proper care of all surfaces in the room is some kind of repair prevention;
- **On salaries.** Our maid service provides significant savings on salaries for staff cleaners, taxes, and social benefits;
- **On the purchase of chemicals.** We care about the health of our clients this is why we provide cleaning in New York for residential apartments, homes, and offices from bacteria, dust, dirt. We also use our special chemicals and equipment.

Cleaning Cost in New York City

Many cleaning companies in New York City purposely stretch the cost of daily cleaning, elimination of various contaminants, and putting things in order. Others compensate for their low prices by charging additional payments.

White Glove Cleaner treats the residents of the Big Apple with great respect every time. The main evidence of this is the absence of hidden fees and a transparent pricing policy. Our [booking form](#) clearly represents all of our prices and fees for different types of home cleaning services. You can also contact us to calculate the final cost of furniture cleaning.

Because New York City is a busy and crowded place, it's easy for your home or office to become dusty and overcluttered. Every New York resident faces problems; if it's summer there is a lot of dust and allergens, if it's winter the driveway or balcony can become dirty and slick. This not only looks awful but can also become very dangerous.

White Glove Cleaner will take care of your cleaning routine allowing you to rest and spend time with family. If you have an office, we can also provide janitorial services to keep your office always shiny to attract more customers.
