Mohammed and his team were phenomenal to work with. They did the outside masonry for three balconies, sheetrock work, and painting. Now two years in from the completion of the project, the work has withstood weather and wear-and-tear so incredibly well. Throughout the entire experience, Mohammed never went silent, was incredibly responsive, and tried to be as much in-person when needed as possible. I will use Rz Construction Group again for any project, and highly recommend them to anyone.
