AROMATHERAPY

Common complaint when using conventional cleaning products is the strong chemical smell that can often

Steam Cleaning

BENEFITS OF STEAM CLEANING.

The beauty of **steam cleaning** is that **steam** quickly kill **99.99% of germs and bacteria**, making it a safe, healthier, eco-friendly and an all-natural way to **clean** your home from top to bottom.

Maid Share utilizes high temperature **steam vapor** with high pressure to sanitize, and sterilize almost any surface. The extremely high temperature of steam vapor helps kills bacteria, Viruses, mold, mildew, bed bugs, dust mites, their eggs, and many other allergy causing pathogens for a Eco friendly and Green clean.

*from the cold and flu by
reducing common
allergens, bacteria and
viruses.*

SAY BYE BYE TO TOXIC SMELLS

*Our green cleaning
products are scented
with custom essential oil
like Lavender lilly and
Eucalyptus mint.*

Artist Of Our Industry

Maid Share started with the idea to make toxic chemicals a thing of the past. We believe in a toxin free clean. Our Cleaners are full of plants based goodies. We believe we are responsible for the next generation and we want to keep our water and communities thriving. That's why we're committed to 100% all natural ingredients.

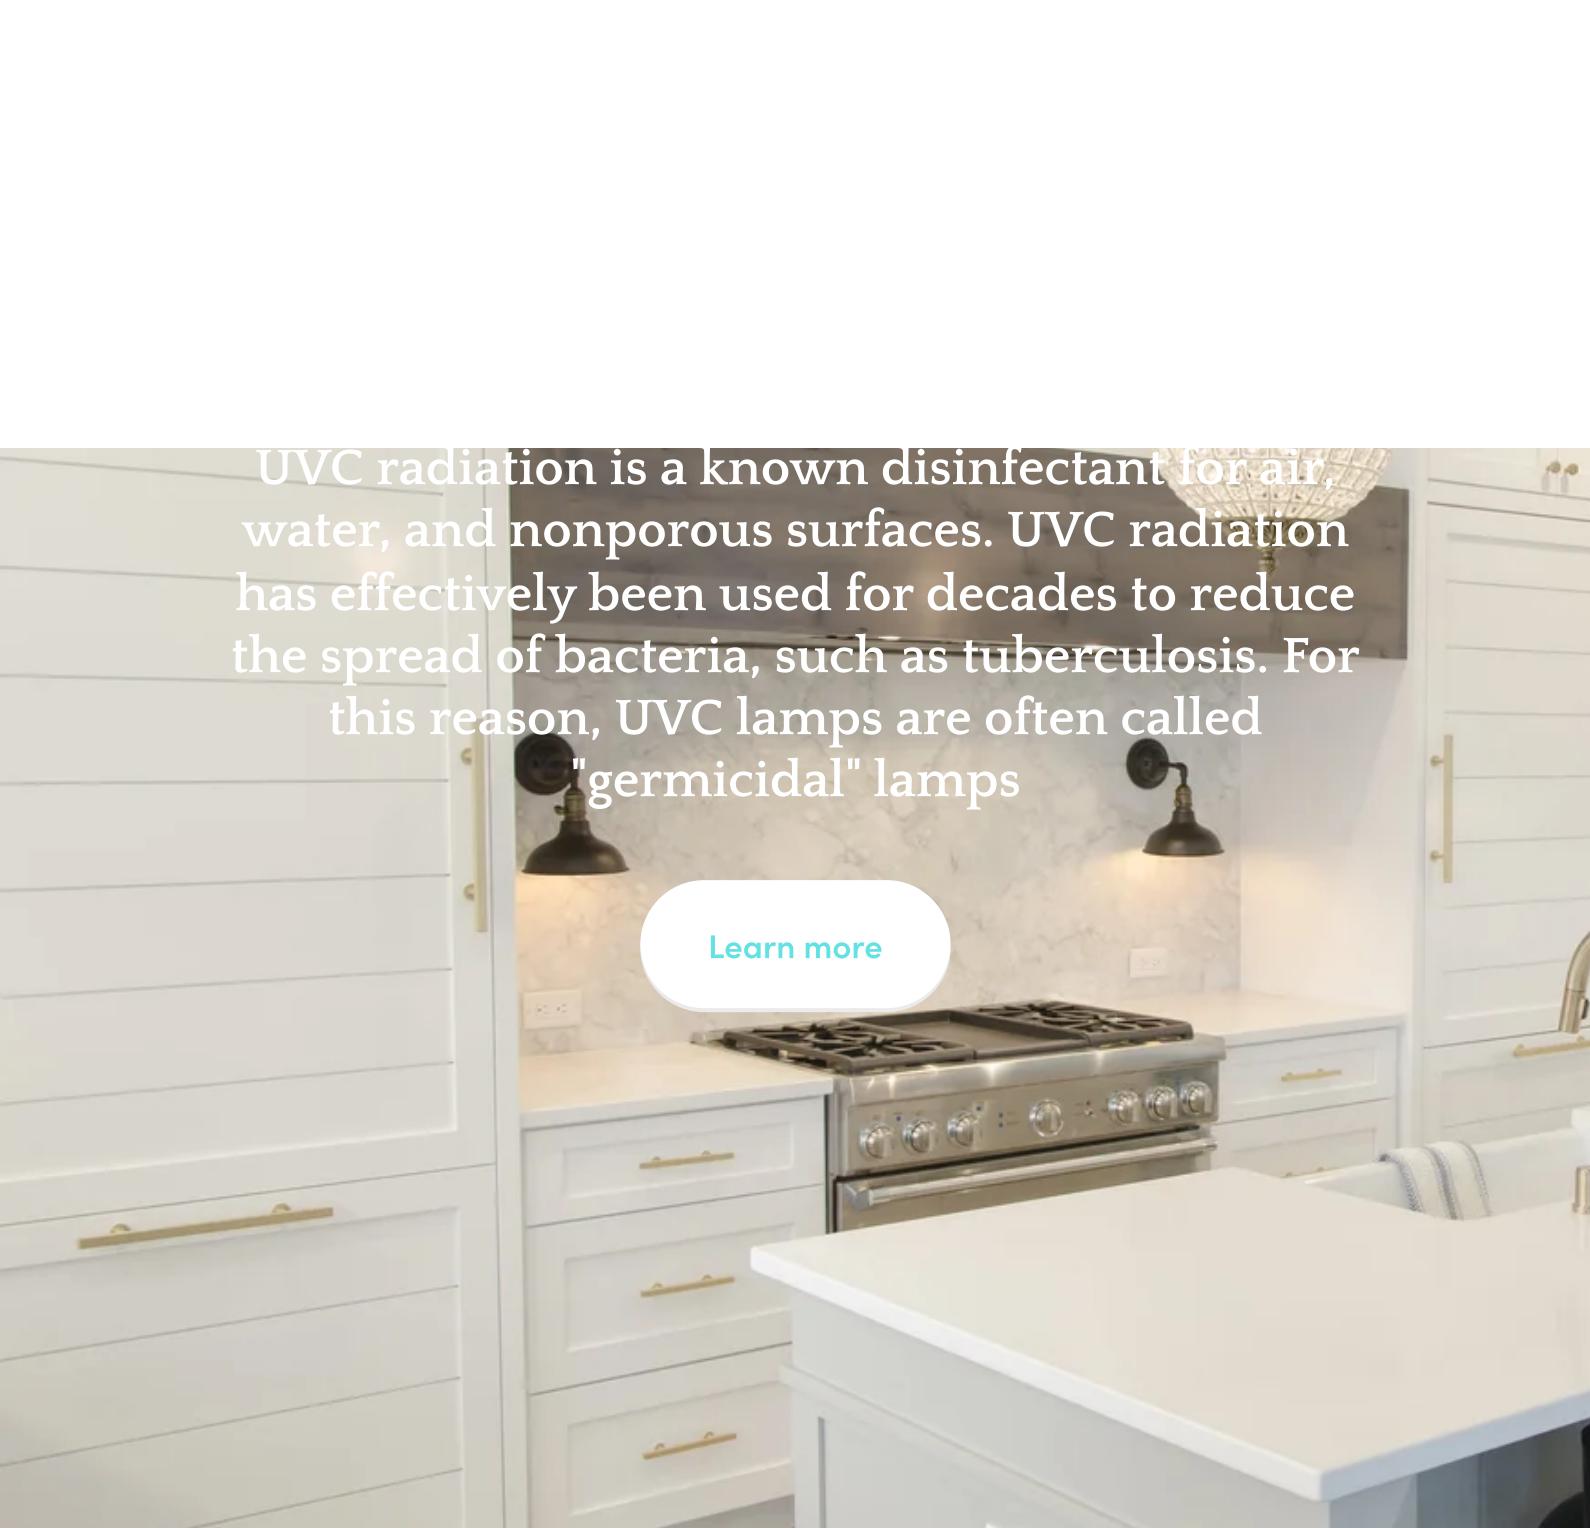

“

FEBUARY 2018

Fatima and her team are professional, affordable, and amazing to work with. She takes great care to clean the right way, and always stays until the job is done. Our place looks great every time! We would recommend her to anyone.

QUOTE SOURCE / GOOGLE REVIEWS

UVC radiation is a known disinfectant for air, water, and nonporous surfaces. UVC radiation has effectively been used for decades to reduce the spread of bacteria, such as tuberculosis. For this reason, UVC lamps are often called "germicidal" lamps
