Stanley Ruth's Story

With 110 years of history, Stanley Ruth still stands strong as New York's first choice for thru-the-wall heating and cooling units. Here's why:

A Long and Storied History

As one of the oldest family-run businesses in America, Stanley Ruth brings a level of experience and expertise no one else can match. We take care of our employees, our customers, and our New York City community.

Exclusively Focused on Private Residences

We are the only HVAC company in the New York area specializing exclusively in private residences. You'll never risk taking a back

seat to commercial or corporate clients.

We Take Care of Complexity

Whether it's a strict co-op board, convoluted city codes or a delicate landmark building, Stanley Ruth's proven track record of navigating red tape ensures no unexpected hold-ups come between you and your thru-the-wall system.

Testimonials

"In this day and age, it is refreshing to work with a company that takes pride in their work and does whatever is necessary to satisfy their customers, no matter the obstacles."

NORM K.

Why Choose Stanley Ruth?

1. **A track record that stretches back over a century**, so you can rest assured there's no problem we haven't solved before whether it's servicing a new model or catering to an older system's eccentricities

2. **We work exclusively in private residences** so you never have to worry about playing second fiddle to corporate clients
3. **Relationships with building supers and co-op boards** that go back decades, so we get approved for installations faster than anyone else
4. **A pioneer in HVAC technology**—we were the first to develop modifications allowing HVAC units to harness a building's heating system and distribute heat with the same degree of control and consistency as cool air
5. **A 30,000-square-foot warehouse** in the Bronx – so parts are always in stock and within a twenty-minute drive from your home
6. **Fully customizable units** – from smart technology to hardware modifications, our team of experienced mechanics has it covered
7. **A loaner program** for members of our preventative maintenance plan, so if your unit ever needs to come into the shop, you won't be stuck without heat or air
8. **Reserved time for emergency calls**, so we are prepared to get to you on much shorter notice compared to our competitors
9. **More of a family than a company**—whether its a manager or a mechanic, chances are they've worked their way up the ladder over the course of decades
10. **Warranties and preventative maintenance plans** covering parts, labor and service visits because our job doesn't stop the moment we leave your home
