How Do We Fix the Damages?

Our team will coordinate with you in understanding the violation notice and provide you with an estimated quote. Once you accept our offer, we will start working on your project. First, we apply for the permit at NYC DOT, and only after its acquisition do we start the repairs.

Throughout the process, we communicate with you, know your preferences, and ensure you are satisfied with our service. After carefully renovating your sidewalk, we contact DOT and request a final inspection for violation dismissal.

Why Trust Us for Sidewalk Services?

Sidewalks hold great importance in NYC, and we understand that. For 25 years, we have been providing affordable services to fix these concrete paths. Our aim is to make them safe and accessible for everyone to use.

During construction, we follow all OSHA regulations to keep the workplace safe and secure for everyone. For all sidewalk projects, we use 4000 PSI ready-mix concrete so that the results are durable and survive the test of time. By choosing us, you can have peace of mind that your investment is in excellent hands.

Customer Reviews

- CALLIOPE LAPPAS | , NEW YORK

"I recently hired Eden Construction to repair my sidewalk after receiving a city violation, and I couldn't be more impressed. From start to finish, they were thorough in their follow-through and follow-up, taking initiative at every step of the project without me needing to ask. It was refreshing to do business with such a reliable and professional company, especially since it's rare to find people of such integrity these days. I found them through a Google search and was encouraged by their positive reviews, and they absolutely lived up to them. I highly recommend their services!"
