

## Our Mission

Parkchester Medical was established with the primary objective of becoming the best multi-specialty healthcare clinic in Parkchester. We consistently strive to deliver high quality, cost-sensitive, and community based medical care that is patient centered, compassionate, and quality-driven. Every member of our team works tirelessly for the attainment of these very objectives. We offer an extensive range of medical services across multiple medical disciplines. All of our services are equipped with:

» **State of the Art Equipment and Lab Facilities**

» **Latest Procedures and the Most Strict Patient Care Protocols**

» **High Quality, Cost Sensitive**

Our goal and objective is to always provide the best medical care services and facility to our community. Our highly experienced staff continuously strives to provide the best care possible and are always here for you.

## Our Services & Departments

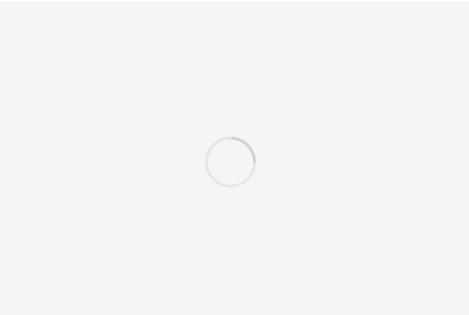

Parkchester Medical is home to the best primary and specialty care physicians in New York. Our walk-in clinic provides everyone access to fast and urgent medical care. Our unique features and extended services are what make us stand apart from everyone else.

**We care:** Custom medical plans are prepared for everyone in our clinic. Every single patient is treated with care, compassion, and caution.

**Wide range of services:** Parkchester Medical is a state of the art medical center with the ability and capacity to diagnose and treat any and all medical issues. We are fully equipped and skilled to handle every medical situation. We offer a diverse range of services, including urgent care, pediatrics, dermatology, pediatrics, and much more!

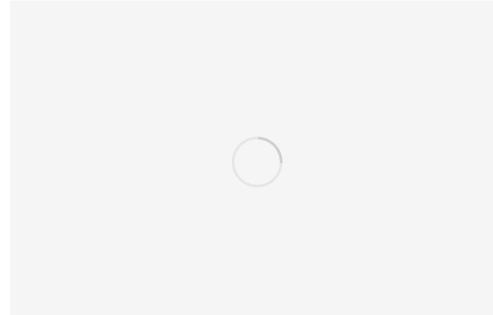

**Strict patient care:** At Parkchester Medical, we strive to have the best patient care possible. Their pre and post op care, follow ups, and coordination for future appointments is our top priority. We do not compromise on our patient care and services.
