Air Conditioning Installation in New York

Are you searching for a licensed, insured, and NATE Certified AC contractor in New York to install a new air conditioning system? Our highly trained technicians can help you with installation services for any type of AC system, including Ductless AC, Central AC, Heat Pumps, and more.

Installing an air conditioner is a complex process that should be performed only by a licensed and insured contractor. The unit you choose to install needs to be perfect for your home, meaning that even the buying process should be supervised by an HVAC contractor. If not, you risk installing an AC that's incompatible for your home. Instead, let Call Core HVAC Services. do it for you.

We've been installing air conditioners for years, helping bring comfort to the residents of New York and the surrounding areas.

Done right, priced right. Call Core HVAC Services. provides the highest quality, for the best value. Contact us today to schedule your ductless or central air conditioning installation in New York .

AC Installation by a Certified Professional

Having your system installed by the professionals is what makes all the difference. Whether it's central AC or ductless AC installation, there are various considerations that simply cannot be overlooked. We'll walk you through the whole process while providing you with options along the way.

Our company and our technicians are NATE-certified, meaning that you can count on us to get the job done right the first time. We've developed a reputation in New York for our habit of providing excellent work to homeowners, so you can expect the same from any of our technicians. Contact us today to schedule an appointment for your air conditioning installation.

What to Consider Before Installing an Air Conditioner

Before settling on an air conditioner, you'll need to take several things into consideration. Luckily, you won't have to do it all on your own. Call Core HVAC Services. can help you with your air conditioning installation from the very beginning, so you can be confident that your new AC fits your home and your budget.

Here are just a few things we'll help you with:

- **Sizing the AC:** With central AC system installations, it's all about finding the perfectly sized system for your home. Too small won't be enough to cool the home properly, and too big will cause the AC to malfunction. In either scenario, it's going to severely hamper your AC's efficiency.
- **Efficiency Ratings:** Not all air conditioners are created equally. Their efficiency ratings will vary, and that largely depends on how much you're willing to spend. Of course, overall efficiency isn't *just* dependent on the unit, so it's still possible to be efficient and budget-friendly.
- **Features:** You'll want to consider features before early on in the buying process. For example, a ductless AC installation will allow you to do many things you can't with your typical central AC system, such as individual room control.

Reliable HVAC System Repair and Maintenance for Residential and Commercial Buildings.

AC Repair New York

The Best Air Conditioning Installation Service in New York

We offer the most **reliable AC installation** services in Manhattan , AC. Whether you want to install a new AC system from scratch or you need [air](#)

How Can We Help with AC Installation?

Installing an air conditioner is a long-term investment and commitment. If you find the right unit and **get it installed professionally**, it will last for over a decade.

We can help you choose and install the right AC unit for your home or office. Here's what we can do for you:

- Recommend the right AC unit for your home.
- Install all types of air conditioning units.

[conditioning repair services](#), the trained technicians at our Manhattan AC company can help you.

We can help you with quick and proper air conditioning installation to make your home comfortably cool.

Here are some of the Manhattan AC installation services that we offer:

- Central air conditioner installation
- Split air conditioner installation
- Mini splits installation
- Package air conditioning unit installation

Our **factory-trained and certified professionals** can install all types of AC units flawlessly. The best part is that you get the best possible service within your budget.

When Should You Consider Installing/Replacing an AC?

Air conditioners are important to maintain a comfortable environment and can significantly affect the air quality in your home. Therefore, you need to ensure that you have a high-quality, fully-functioning AC unit in your home.

Here are some of the instances when you should consider buying a new AC:

- Your old AC is working on low efficiency and needs to be replaced
- The cost of repairs is higher than the cost of replacement
- Your AC is old and does not meet new compliance requirements
- Your energy costs or utility bills have spiked
- It makes noise and has problems like water leaks or ice formation
- Your AC system degrades the air quality in your home

We provide quick and **hassle-free air conditioning installation service** and have decades of experience in this field.

- Do proper ductwork and duct cleaning to ensure optimal AC installation.
- Guide you on post-installation maintenance and use.
- Provide round-the-clock customer support even after installation.
- Come back for regular maintenance and air conditioning repair work.

We have been a **trusted air conditioning installation service** provider in New York for decades. Hire our experts to get the job done right.

Reliable Air Conditioner Maintenance Services in Manhattan

Regular air conditioning unit maintenance and servicing can prevent the need for AC repair and parts replacement. It's better to **keep your AC running optimally** with regular maintenance than to wait for it to break down and then fix it.

That is exactly where we shine. We offer the most comprehensive AC maintenance plans and check your AC for all possible issues.

Here are some of our areas of expertise:

- Central air conditioner maintenance
- Split air conditioner maintenance
- Mini splits AC units maintenance
- Package air conditioning units maintenance

Our **factory-trained and certified professionals** will give your AC units the due care and service that they require. Our AC maintenance services are unmatched by any because of our longstanding core values of honesty and dependability.

Choose Us as Your Go-To AC Maintenance Company

Our professional air conditioner maintenance experts will make sure that your AC unit works at its best. We perform the most **thorough and efficient** AC tune-up and maintenance in the entire Manhattan area.

Why Do You Require Regular AC Maintenance Services?

The short answer is to keep your air conditioners running at optimum capacity and **avoid any breakdowns** or major performance issues.

Here's what we can do for you when you hire us to service your air conditioning units:

- Thoroughly check your AC unit for performance issues.
- Check and deep clean your AC filters.
- Recommend filter replacement, if needed.
- Clean dirty foils and other parts of your AC unit.
- Clear a clogged condensate drain.
- Lubricate any mechanical parts, if needed.
- Check refrigerant level.

Our professional AC maintenance technicians will find the smallest of faults before they snowball into a larger problem that costs more to fix. We are the AC maintenance **service provider of choice** for many customers and are just a service call away.

The long answer, however, factors in a lot of reasons why you should invest in regular AC servicing and maintenance.

Here's why you need regular AC maintenance services:

- Keep your AC running smoothly.
- Maintain the air quality in your house.
- Avoid any spikes in your energy costs/utility bills.
- Save the money you'd need to spend on repairs.
- Ensure that your AC maintains a comfortable temperature.
- Keep your AC filters clean, to avoid any health problems.

Our AC maintenance technicians will **thoroughly check your AC** and provide the best service possible. From regular maintenance to finding the smallest of performance issues, we can do it all.

AC Repair in New York

Reliable 24-Hour Emergency Air Conditioning Service in Brooklyn County

Call Core HVAC Services. has all your air conditioning repair answers under one roof. With nearly 30 years of industry experience, we can quickly and efficiently diagnose problems and offer comprehensive AC repair plans designed to fit your unique needs and budget.

Operating an unreliable AC system is not an option during a Southern California summer. Get fast and affordable cooling services in Brooklyn County when you call [\(917\) 352-3020](#).

Why Isn't My Air Conditioner Working?

Is your home not cooling as efficiently as it used to? Have you noticed any wet spots near your unit that may indicate a leak? Is your unit making unusual noises or producing strange smells? If so, it's time to [contact](#) an New York AC repair technician.

When you call Call Core HVAC Services., we will troubleshoot your AC issue by:

- Checking the air filters to see if they are dirty or clogged
- Inspecting and cleaning the evaporator coil
- Checking for refrigerant leaks
- Looking for issues in the air handler
- Testing for electronic problems

While [maintaining your air conditioner](#) is an important part of keeping your system in optimal condition, we understand that sometimes repairs are unavoidable, especially when you have an older AC unit. Remember that one of the simplest things you can do to keep your system running strong is to regularly change your air filter. When air filters become dirty, they can restrict the flow of air through the unit, which can cause problems with your unit and negatively impact the quality of your indoor air. The average household should change their filter about every 90 days, but households with pets or allergy or asthma sufferers should change their filter more frequently.

Need Emergency Repairs?

Our New York air conditioning technicians know that there is never a convenient time for an AC breakdown and they most often happen in the middle of summer when your air conditioner is working overtime to keep you comfortable. Call Core HVAC Services. offers fast emergency repair services when you need us most. We will come to your home, thoroughly inspect your unit, diagnose the problem, and fix it fast. If your AC is too old or beyond repairs, we can recommend a [replacement](#) that fits your budget, the size of your property, and your needs, installing it for you quickly to ensure you do not suffer for long.

We'd be happy to give you an honest assessment of your system and recommend the solution that meets your home's cooling needs. Call us at [\(917\) 352-3020](#) or [contact us online](#) to schedule your New York AC repair!

Packaged Terminal AC Installed In NYC

Packaged Terminal Air Conditioners (PTACs) are small heating or cooling units that attach through walls.

These can be heat pumps for heating and cooling or standard electric heating and cooling. PTACs also can be only cooling units. Typically they're used for small spaces, such as hotel rooms or some assisted living facilities.

Call **Call Core HVAC Services.** today for PTACs and other air conditioning services at (917) 352-3020. Ask about free estimates.

Get These Advantages From a Call Core HVAC Services. PTAC in Brooklyn

- **Heating and cooling from one product:** PTACs are self-contained systems. They are single units that provide heating and cooling from one unit, which differs from AC systems that use split systems.
- **Higher energy savings:** The newer PTAC units aren't only energy efficient. They also offer increased comfort. If your enclosed space grows particularly cold, you'll want a PTAC with electric heat, as it's better for heating than heat pumps.
- **You set your own temperature:** You can manually select fan speeds or use the automatic speed settings. Simply set the thermostat to a desired temperature and select the heating function.
- **Our PTAC is most advanced,** with a fully integrated make-up air system.
- **Reliable performance/efficiency and warranty** make it more than cost effective.
- **Free 1-year extended warranty** with VIP priority services, including reduced diagnostic fees, discounted repairs, etc.

Air Conditioning Installation in New York

The throughout the city, it's time to call Call Core HVAC Services. We've been dedicated to providing dependable and affordable HVAC repair services to all of our customers.

We pride ourselves in the quality of our work. From the way we insulate our duct-work to the running of the copper refrigeration pipe, our quality is like no other. We spend as much time as we need to insure that our jobs are done perfectly. We are not interested in going back or cutting corners; when choosing Call Core HVAC Services, you know the job will be done right.

Transparent and Clear Communication is our Standard. Unlike other commercial HVAC repair companies in NYC our goal is to keep you a customer for life. We are 100% transparent in all of our communication. We take pride in our honesty and the integrity in which we conduct business on a daily basis.

Keep cool with regular cleanings and maintenance from PTAC Air Conditioning Services in NYC

If you're experiencing a problem with your air-conditioning unit, PTAC Air Conditioning Services in NYC will assess the performance of your unit and make every effort to repair it on the spot. If your unit cannot be repaired with parts out of our truck stock, we will **AC Installation by a Certified Professional**.

Depending on the complexity of the necessary repair and age of the unit, the solution may be as simple as picking up a new part from our supply house or, discussing your replacement options.

Preventive Maintenance Programs

The Call Core HVAC Services Company Service Agreement Program can extend the life of your units to keep them running effectively and efficiently for years to come.

We offer individual Share Holder/Unit Owner Agreements, as well as cost-saving programs for larger buildings with 50 or more units under one contract. Upon request, we would be happy to meet with board members to discuss the different service programs we offer and to provide a list of similar buildings we have under contract.

Service Agreement Program

Our Service Agreement Program is offered to newer equipment (10 years or less). Service Agreements include proper cleaning and maintenance (spring and fall) and all necessary service calls throughout the year, plus all parts* and repair labor. (*excludes compressors)

Both our Preventive Maintenance Programs and Service Agreements help reduce the price of repairs and ensure preferred service response time (over noncontract customers) all year long, especially during our busy seasons. Preventive Maintenance Programs and Service Agreements can be customized to your building's needs.

Pressure Washing

Pressure washing and coil cleaning rids your unit of harmful contaminants such as dust spores, pollen and mold that can build up over time in units that haven't been properly maintained. A clean machine operates more efficiently so you can save on your electric bill and, more importantly, improve your indoor air quality.

The price includes the removal of your unit to our shop facility for pressure washing, coil cleaning, inspection, replacement of air seals, painting of drain pans, and reinstallation.

All PTAC Brands. Efficient 5 Star Service.

Air Conditioning Replacement

Why wait for service? Call Call Core HVAC Services. for honest, dependable air conditioning repair service now!

We replace air conditioners. We handle all brands of AC units to allow you choose the best one for your needs. Unlike dedicated factory dealers who have to convince you that their brand of air conditioner is the only one for you, we are an independent dealer. This allows us to help you choose from the hundreds of different solutions out there to get just the right equipment for your home. We service, repair, maintain and replace all kinds of furnaces. We handle every brand and type of furnace. We work on natural gas furnaces, electric furnaces, propane furnaces and oil furnaces. We repair all makes, models, types and brands of furnaces. Our technicians have fully stocked trucks to allow us to repair your furnace on the spot. Our technicians are NATE certified on furnace repairs and troubleshooting furnaces. You can count on us to repair your furnace the first time. No surprises! Just good old fashioned honest service. Get the price first with our up front pricing on your furnace repair.

A Local Family Owned & Operated Heating & Cooling

We're proud to be one of a select few woman-owned heating and cooling companies in the Manhattan area. Family owned & operated by New York, we've been in the heating and air conditioning business for over 15 years.

While it's true that we're in the heating & cooling business New York insists everyone at Call Core HVAC Services sees themselves as being in the "people pleasing business" We know that there's plenty of options when you need help with your furnace or air conditioning so we make it our duty each and every day to give our customers more than they expect.

Ability-wise we do all the things other top-tier HVAC companies do, maybe even a bit more. But to really separate ourselves from the pack we concentrate on the customer experience at every level.

We use a small team of hand-selected certified technicians who were chosen as much for their customer service skills and integrity as they were for their ability. Every assessment and recommendation they make is delivered with your end goal in mind, never with the intention of making a sale just to make a sale or to push a particular product.

They'll also interact with using terms and concepts that any laymen would understand. No industry speak or technical lingo, just simple straight-forward explanations and clear-cut plans of action to match your needs and your budget.

Contact us anytime you have questions or need help with any of your HVAC or PTAC needs. We look forward to working with you.

Honest Up-Front Pricing, Service Built Around Your Schedule & Free Estimates.
